

## Activities under PBLMD Mobility to EU partners

**Mobility duration:** 2 weeks

**Formal aim/purpose:** Training (training mobility agreement is to be completed by each staff member BEFORE mobility starts)

**Scope:** This mobility is to support the development of WP4

The mobility teams from MD will be coordinating the activities during the mobility period with their EU counterparts. During mobility period there are 2 main tasks that the teams are to fulfill: (1) training and (2) development (with division of time between training and development of app. 50-50).

It is suggested that EU partners have 4 meetings in total during the stay with MD partners: 2 in week 1 and 2 in week 2. Fridays of each week to be devoted to learning reflections; planning; brain-storming; drafting.

Training: as part of training, EU partners will facilitate (as practical as possible) access of MD teams as observers to lectures, group work, seminars, lab work, supervision, examination. MD teams will collect questions, issues that would be addressed with EU partners during face-to-face dedicated meetings.

Development: during the mobility period, MD teams will get together to or individually will continuously draft and enhance WP4 so that by the end of the mobility period they will have drafted at least 80-90 % of WP4 (if there are say 4 people on mobility, with say 4 full working days devoted for development during the 2-week period, then there will be 16 working woman/man-days available to draft a WP4 report during the mobility period). MD teams will bring together their learning, knowledge and experience gained from WP2, WP3 and from the mobility in question to draft WP4.

## WP4 - Programme November 2016

**Remember: At the end of EACH DAY each member writes reflections of what s/he had learned and how that could be implemented in respective study program**

| Day                          | 9-12  | 12-13  | 13.00-15.00  | Free-time –possibilities  |  |   |   |
